As one of the world's largest footwear hanger suppliers, taking responsibility for the world around us is vital.

All of our hangers are recyclable, and our recycling system reduces waste by ensuring that as soon as a product leaves a factory, those at the end of their useful life come back in for recycling.

For more information on our ethical approach to hanging, please get in touch or visit [phineasgroup.com](https://www.phineasgroup.com)

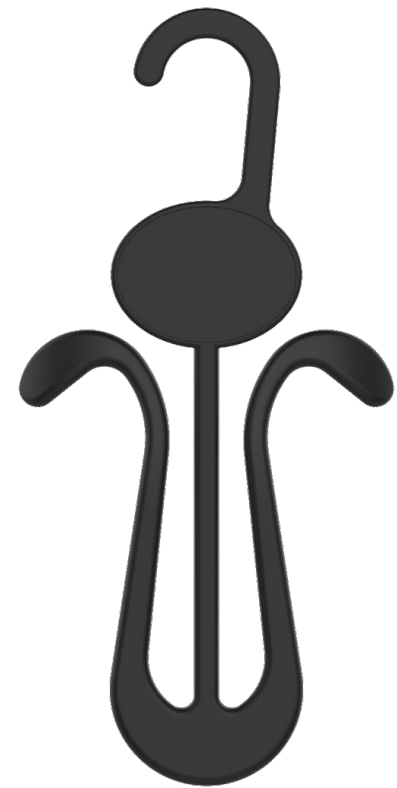

Now, let's see the hangers...
